**Update Your Account Profile 400**

Please use the form below to update your account profile. With the exception of your password, your current information has been already entered into the fields so that you only need to modify the fields that you wish to update. You will need to type in the Password fields (you can use your old password or pick a new one, as long as you put the same password in both password fields). Your Username cannot be modified.

#### Special Notes:

1. List your e-mail address accurately, as the program will use this address when sending you your password and other information.
2. Your **username** must be one word, using 1-20 characters, with no spaces, using only numbers and letters (a-z, \_, or 0-9). Capitalization *does* matter.
3. Your **password** must be one word that contains 4-20 characters.
4. **Write down the username and password that you choose**, as you will need these later when you come back to modify your ads.

Required fields are denoted by \*

## Backup Manager

Welcome to the Backup Manager. Here, you can make a full backup of your important data files, including the ads database for each section, the Auto-Notify profiles for each section, and your user registration database. You can also restore all of these files from a previous backup, and you can delete some or all of your old backup files.
